Spragne's Cundidacy Decmed Unwise-Tacoma's Council Overrides the Kayor's Voto-The R. E. Ham Liable to Perfeiture.

Broking Palls, Wash, Oct. 30.—Information has been received that the secretary of the interior has rendered a decision in the Wallace townsite contest in favor of serip location and suntaining Mr. Wallace in defense of his said. It will be remembered that a tale. It will be remembered that a great deaf excitoment prevailed there lost win ter in the jumping of lots, by reason of a supposed defect in the title in his scrip cater. It turns out

defect in the tittle in his scrip eatry. It turns out that the scrip was entered in the name of one Boucke. It seems that his heirs supposed that he was dead, that the scrip was hest and they had dualicate scrip issued and entered on the land in Dakota. This coming to the knowledge of residents of Wallage. Hery proceeded to help themselves to the real estate. Mr. Wallace has succeeded in inding his man Bourke, proving that his entry was on original scrip, which the secretary of the interfor has decided walld. The result is, Mr. Wallace will secure title to the land, improvements and all. The jumping of lots had the effect of attracting a great deal of attention. Since then the town has been suipyling a Sert-class booms, until now if is by far the largest and liveliest town in the Core if Aleco region.

The Steamer Washington Sinks in Pifteen Free of Water. No Lives Lost. SEATTLE, Oct. 20 - Early this morning the steamer Washington, bound from Scattle to steamer Washington, stouch from Section Whatcom, struck swock and sank near Deception pass. Front the very meager particulars received here, it appears that the vessel was traveling along at the ordinary rate and entered water that was rather rough. The steamer sheared to one side and struck a rock, staving in two plauks of ber hull. The water poured in at a tremendous rate, and the vessel was immediately headed for about one water had gained such headway, however, that the steamer sank before about could be resched in factor and water. in the second of the most prominent republicant deploys the candidacy of statement that many of the most premisent resublicans deplore the candidacy of General J. W. Sprague on public grounds. They claim that if General Sprague secures the peaking it will be very uncertain if he can ever take his seat. He is over 70 years old, and auffers from Bright's disease, which it is impossible for a men of his years to throw off. In the contingency that: he is elected and is unable to take his seat, the new state will be one rote short which of itself will be a calamity, and if the disease, takes a faial turn, as nearly happened last winter, the governor will have the appointment and will andoubtically select a Seattle man. The Tacoma people think that thus will place Plerce county, the largest and weathless county in the state; in a bat position. A claim has been made by Mr. John S. Baker, ashator-elect, that the delegation to the Baker, senator-elect, that the delegation to the legislature was elected as a Sprague delegation, but the fact is seconding to THE ORBONIAN correspondent's informant, that the Sprague ticket was defeated at the primaries and in the convention the numinations were given to the delegation on the distinct understanding that they were to vote for a Pierce county men, and that he should be the man who could carry the biggest vote outside of the county. The gretileman who gave this information to THE ORBONIAN'S correspondent has been chairman of the county committee and of more than one convention, and is well able to judge of the feelings of the voters of Pierce county.

taining to conflagrations, we naturally give him the berefit of the doubt. We. as tax-payers, properly-owners and citizens, are deeply interested in this impending and au e-to-come danger. We hate to feel that when we leave our cosy homes in the morning that there is any such a thing as their being in ruins when we return. The cry is, more hose, more engines, more men that can be enlisted and paid to remain at the engine-houses of the fre department, which means more strength it aid in putting down this terrible conflagration when it does come. Now, strength is what everything has to have to do service in a greater or less degree. Man acquire s this much-needed degree. man acquires means. Exercise, strength by various means. before the public we have temporarily transferred our immense line of Trimmings to our Dress Goods counters and placed them on

C JR REASONS For making this offer are already set forth. That they may be understood by all we will simply say that it is a common remark among the ladies that the trimmings of a dress cost more than the desires, and she will sacrifice the quality of the garment in order to trim the same in an elaborate manner.

WE CLAIM To have the most clegant stock of Black and Colored Dress to the judgment of the public

A COMPETENT UDGE Will examine into a case and scritimize

MADAM Your opinion is soluted. Please, however, extend us the courtesy of examining our lines of Dress Goods before rendering your decision. We are perfectly willing to abide by your verdict, provided you will examine into the evidence we have to offer in the shape of

TRIMMINGS AT COST and DRESS GOODS AT LOWER PRICES than are named by any competitor for same quality of goods.

THE PRICES We quote you on our Dress Goods are our regular every day can buy then now or a month from now at the same prace

THE GREAT INDUCEMENT We offer is TRIMMINGS AT WE know full well that many a latty is postponing her purchase of Fall and Winter Dresses owing to the cost of suitable trumnings for the same

OUR OB ECT as heretofore stated, is to bring our Dress Goods Department prominently before the ladies of Portland. We will welcome you just as cordially it you simply call to a tamine our many lines of Dress Fabrics as though you come as an intending purchaser.

OUR AIM is to convince you that we have not overstated the facts when we bress I abuse in the city of Portland

OUR PREMIUM is TRIMMINGS AT COST for three days. Remember you purchase the trimmings no matter whether you purchase a dress or not, as undoubtedly many of you siready have the dress and mant the trimming only. Do us the favor, however, of pricing our Dress Goods.

The smallers unarmed meronant neet. The weakness of Rugland's position lies not only in the rize of her exposed merobant fleet, but in the fact that she relies on this fleet for necessary supplies from abroad and especially for supplies of provisions. Only one-third of her wheat supply is grown at here. horse. During the year 1897, the United Ki: gdom imported staple articles of food to the value of £118 000 000, including live an man and ment, butter, cheese and eggs vicat and flour, grain, hops, and sugar, and wheat and flour, gram, hops, and sugar, and fru is and vegetables. The average importation of food into the United Kingdom's thus far about \$30,000,000 monthly or about \$12,000,000 per week. In event of war neither the present British navy, nor any conceivable many could protect the vast Brisish merchant manne. The sailing vesses a would of course disappear at lonce. The swift steamers would have to trust to their heels for security and the slow steamers could not be protected by the slow steamers could not be protected by convoy without submitting to commercial disadvantages of delays, circumscribed routes and times of saling, that would mak the remedy as bad as the evil sought to cure To protect British commerce would re quire a navy large enough to partol ali the muritime highways of the earth and such a navy does not exist, never existed and never will exist. ### THE BEHRING SEA CISE

The Behring sea case at Port Townsend ought to get speedy settlement. The defense of the schooner Swan is that "the Behring sea is referring to citizens of the United btates an open sea and laws against sealing passed by congress cannot apply to any but passed by congress cannot appropriate foreign ships and foreign sailor. Secretary Windom's recent lead ore decision says.

The decis on is an unpleasant shock and sarprise to the whole mining industry of the West Aircant some of the nines carrying low grade ore and heavy in lead have closed down and others are followings in I have closed down and others are followings in I have hope and certainty expected a different re ult although the tobby in the interest of railroads working and operating in Old Mexico was very strong. I have hopes that congress will receive this diagrant wrong perpetricted by the treasury department. In its general treatment of the West however, its on a par with the apparent policy of the present administration as evidenced both by the prevalent and his secretary of the interior is well as Secretary Windom. The Western country can targety take circ of itself. The whole doctrine of protection rests largely on a basis of enlightened and particular, it is not apparent and the mining states will begin to que toor the policy of justice in the six I have it when its car are given industrics when its car are given industrics when its car are given.

Frief Resume of the Antien Already Taken by the Government-Revised Plans and Estimates Submitted, Etc.

As the time for the assembling of, congress approaches, the people throughout all sections of the country discuss with more or less interest the topics having a special bearing upon their welfare and prosperity, that will probably be brought before that body. There is no subject to which the attention of congress at its present session will be called which is of so much importance to the people of a large portion of this stace, as the question of providing for the transportation of the products of the Columbia river valley past the obstructions in that river. In view of these facts THE OREGONIAN places before its readers the following statement of what steps have been taken loward opening the river between The Balles and Cellio in order that all may have a cies; nuder-standing of the way in which matter stand at the present time in regard to this desired in provement.

the view to preparing the way for a detailed
study of plans for its improvement. The river
and harior act of life, directed a detailed survey
to be made and plans and specifications for a

The final report and conclusions of this board will not be made known until after the meeting of next congress. Whatevar these may be, they will doubtless have great weight with congress.

The boat reliroad and the portage railroad are both admitted to be only temporary expedients to be adopted until a more permanent project of the

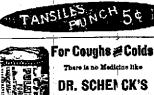

isting corporate roads is a marter of great doubt. Since the revised plates and estimates now before the Engineer Board for overcoming these obstructions by means of a cental and locks, seem sufficient for all present and prospective needs of commerce, with the estimated cost of construction, within a limit that should be considered reasonable and proper to be expended thou such work, it would seem advisable that the efforts of all should be united on this line which would require no change of policy on the part of congress. A gentleman who has taken a deep interest in all the prospects for opening the Columbia, to newigation, when asked by a reporter what he desimed the most featible scheine for a speedy solution of the problem, made the following angestion which, if not impracticable is rather starting:

PRODUCING THE PROOF. Overwhelming Statements Regarding the Purity and Power of a Popular Prepara-tion-What Scientists Say.

tion—What Scientists Hay.

It is not only natural but just that proof abould be demanded by the public, for every statement or claim that is made to the public. When, therefore, it is asserted that a certain naticle is not only pure and paistable and a most delightful beverage, but also that it possesses qualities aimest invaluable for the buman system, people are right in demanding the proof. Read the following:

Professor Henry A. Mott, Ph. D. F. C. S., of New York, says: "By the most cureful analysis, I have found buffy's lure Mail Whishey free from adulteration of reelign substances. These qualities should cortainly recommend it to the highest public favor."

public favor."

Dr. William T. Cuiter, State Chemist of Connecticut, asys: "Duffy's Pure Mait Whiskey coutains no deleterfous or injurians qualities and its absolute purity as well as solenthic mode of insandature, must recommend it to general use and favor."

Dr. R. W. Hutchinson, the eminent author, says:
"I highly recommend Duffy's Pure Malt Whiskey
and prescribe it in my practice." and prescribe it in my practice."

Rev. B. Mills. Li. D., says: "I have used Duffy's Purc Mell Whitszer with great Renefit to my wife who is a confirmed invalid. I am a Presbyterian elergyman and a Bootor of Divinity, but I am not afraid to recommend Buffy's Mell Whiskey as the purcat and most efficient preparation as a medicine that I know of, and my experience is a large one."

Hundreds of additional statements could be furnished, but the incrite of this article, which has been before the public so many years, amply prove themselves its great power and value.

Justice Mayo Has a Delicate Case on His Hands to Denide.

Mr Ballack's Rew Office-A Very Exciting Run way-Fine Duck Sheeting-A Street Considerably Cut Up

A most complicated and perplexing case was tried before Justice Mayo last night. Miss Rose Peck, well known and well connected in this city, was arraigned on complaint of Mra. Hosman, charging her (Miss Peck) with having stolen a set of furs on the suight of October 13 from the real since of the complainant on J street between Third and Fourth.

The court from was full of female witnesses litt. Hosman stated positively that the furs were bers. Miss Peck had them ou in the court room and they were placed in charge of the justice for examination. A Mrs. Biers testified that she made up the identical furs and sold them to Mrs.

and they were piaced in charge of the justice for examination. A Mrs. Biers testified that she made up the identical furs and sold them to Mrs. Hosman and recognized them by the peculiar manner in which they were made up the peculiar manner in which they were made up to peculiar manner in which they were made up to peculiar manner in which they were made up to peculiar manner in which they are made up to the sales acceived with the state of the sales acceived with the time choice them to be also showed also was not at Mrs. Hosman's boung on the night of the 18th Miss Peckhad no attorner, but with the assistance of Justice Mayo who becought out her side of the case praity well. Dount; Hell stated that he was very much perpected as he was sure the witnesses were all partectly honest in their testimont although very conflicting. He submitted the case without remarks, and Justice Mayo took it under adviso ment sering he was as much perplexed as the prescenting attorney.
